TO: Board of Directors

FROM: William L. Steele

SUBJECT: Report for March 31, 1997

Staff

No Changes.

Facilities

Our humidity control system continues to work without breakdown.

Activities

Testing of the fortieth pickup is underway, and at this time, there is no reason to believe that it will not be completed and reported on time. It is doubtful that any future pickup can be started significantly sooner because pickup and sample selection meshed with little slack time.

We have received all the results from the inter-lab test participants. The results will be forwarded to everyone shortly. The samples for the next round will be sent out sometime this month.
